

Watermarking Your Images

For Lightroom 3:

<http://tv.adobe.com/watch/learn-lightroom-3/create-custom-watermarks-for-photos/>

http://help.adobe.com/en_US/Lightroom/3.0/Using/WS43660fa5a9ec95a81172e08124a15d684d-7fff.html

Tim Grey tutorial: <http://www.youtube.com/timgreyvideos> and choose the title at right named *Copyright Text in Batch*

For Photoshop CS5:

<http://terrywhite.com/techblog/archives/5321>

http://av.adobe.com/russellbrown/Watermark_SM.mov

Embossed watermark for all versions of Photoshop:

<http://www.thelightsrightstudio.com/tutorials/WatermarkingYourImagesForTheWeb.pdf>

For CS2 and perhaps other versions:

http://www.russellbrown.com/tips_tech.html and choose *Digital Watermark Branding*

Nice free software for all versions of windows: <http://www.faststone.org/>

Includes resizing, watermarking, image viewers, etc.

Create a brush preset in any versions of Photoshop:

<http://www.youtube.com/watch?v=zT2ubjznunM>

or Elements: <http://www.youtube.com/watch?v=vnhZPPkU2I4>

or just hold the ALT key, type 0169 on the **right** number keys, and then type your name on the image.
